

Technical Planning Report

August 23, 2018

After reviewing the number of swimmers at the 2018 Winter Regional meets, no change in team alignment is recommended for the Winter Regional meets in 2019. One note of caution however. The pools in the Blue Ridge region that would normally be considered as adequate venues are not available on that weekend. It needs to be decided if that Region is going to try to find a facility that is capable of hosting a meet of that size or if it will consider breaking the meet into a 9-12 meet the weekend before and a 13 and over meet on the scheduled weekend. It has been brought to my attention that Hargrave Military Academy may be available that weekend. A host team would have to be found if that is what is decided. The 9-12 weekend would be February 15-17, 2019.

After reviewing the number of swimmers at the 2018 Summer Awards meets, no change is recommended in team alignment for the 2019 meets.

I have been asked to survey the Southwest District to see if there is any interest in initiating a B/C circuit for 12 and under swimmers. I should have more information on this in time for the September meeting.

Respectfully Submitted,

Jessica
